

Prof. Dr. Kwang-Sup Lee

Honorary Professor, Dept. of Advanced Materials
Hannam University
1646 Yuseong-Daro, Yuseong-Gu,
Daejeon 34054, S. Korea
E-mail: kslee@hnu.kr

Kwang-Sup Lee is a former president (2020-2024) of Hannam University, Daejeon, S. Korea. He was a Professor of the Department of Advanced Materials at above University during 1992-2019. He also held a position as a Research Professor at the Institute for Lasers, Photonics and Biophotonics in the University at Buffalo, State University of New York, USA in 2005-2022. Prof. Lee received his BS from Hannam University in 1976, MS from Korea University in 1980, and Ph.D degree in polymer science from the Freiburg University, Germany in 1984. He was a postdoctoral fellow at the Max-Planck-Institute for Polymer Research, Germany from 1985 to 1986 and a visiting professor at the Naval Research Laboratory, USA in 1998-1999. Prof. Lee's research interests lie in the field of photofunctional materials including the synthesis of conjugated organics and polymers, quantum dots, carbon nanotubes, and organic-inorganic hybrid materials and fabrication of device involving them. He has authored and coauthored 280 journal articles and book chapters, and also 43 patents. He has chaired and co-chaired more than 20 international conferences and symposia, and has given about 300 plenary, keynote, and invited talks. Prof. Lee is a Fellow of SPIE (USA), EM Academy (USA) and Polymer Society of Korea (PSK, Korea) and he is currently serving as editorial board members for several international scientific journals including *Advances in Polymer Science* (Springer, Germany), *NPG Asia Materials* (Nature, UK), *Optics Continuum*, (OSA, USA), *Nonlinear Opt. Quantum Opt.* (OCP, USA).
